

Coastal Photographer's Guild

HOMEWORK ASSIGNMENT FOR March 18, 2010 Meeting

Some Like it Hot!! Some Like it Cool!!

Photography is all about light and many photographers do not understand white balance. Using the best white balance can have a great impact on the quality of your image colors as Jim Hyde demonstrated at our February meeting. Practice the lessons he taught. Jim's handout accompanies this document.

DO NOT use "Auto White Balance". The assignment should be shot in a specific white balance. Record that white balance and be prepared to explain why you chose it. Any subject is acceptable.

Here are a couple of web sources which you may find useful:

<http://www.cambridgeincolour.com/tutorials/white-balance.htm>

<http://www.all-things-photography.com/white-balance.html>

Please follow this procedure:

Send no more than TWO IMAGES to Jim Hyde at cpgpictures@gmail.com

If you choose to bring your images in another medium Jim will have a multi format card reader.

Please have your work in by 3/14/10

For members only
